

GORLE MOUNIKA

Aspiring Data Analyst / Python Developer

Srikakulam, Andhra Pradesh | 8106078206 | gorlemounika18@gmail.com | linkedin.com/in/mounika-gorle-a82b17350 | github.com/Mounika6115

SUMMARY

AI & Machine Learning graduate with hands-on Python experience in data analysis, deep learning, and data-driven application development. Skilled in processing datasets, building models with TensorFlow/Keras, and using Git-based workflows, with strong problem-solving and communication skills.

EDUCATION

B.Tech (Artificial Intelligence and Machine Learning)

AI&ML, Sri Sivani College of Engineering, Chilakapalem

2022-2026

CGPA: 7.9

SKILLS

- Programming Languages: Python, SQL, HTML, CSS, JavaScript
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, data cleaning & exploration, statistical analysis
- Machine Learning / Deep Learning: TensorFlow, Keras, image processing, model evaluation
- Developer Tools: Git, GitHub, version control workflows
- Soft Skills: Communication, teamwork, problem solving, independent execution

EXPERIENCE

Deep Learning Intern | Shamghar Software Solutions

Mar 2025

- Built and trained deep learning models using TensorFlow/Keras for image and text classification tasks.
- Processed and prepared datasets for model training, applying data cleaning and exploratory analysis techniques.
- Documented model performance and defects, and collaborated with the team to iterate on solutions.

MERN Stack Intern | Bharatversity - BITS Pilani

Jun 2025

- Developed full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Built reusable components and integrated APIs to support real-time data-driven features.
- Practiced Git-based version control and participated in code reviews to improve code quality.

PROJECTS

AI-Powered Social Fashion E-Commerce Platform | Final Year Project

Mar 2026

- Built an AI-powered e-commerce platform with skin-tone detection and personalized recommendations, applying image processing and data-driven logic using Python/Flask, React.js, HTML, CSS, and JavaScript.

Food Now (Food Delivery App) | MERN Stack Project

Jun 2025

- Developed a responsive full-stack application with React, Node.js, and MongoDB, including authentication, order tracking, and optimized UI/UX.

Voting System | Hackathon Project

Apr 2025

- Built a secure online voting application using HTML, CSS, PHP, and SQL, including data validation and storage logic.

CERTIFICATIONS

- Big Data Basics Course Completion Certification — IBM
- Explainable & Generative AI Workshop — HMI
- DevOps: Code To Cloud — ITYUKTA
- Design Thinking and Innovation Workshop — Brainovision
- Employability Skills Training — Nandhi Foundation
